Bed Linen

Our extensive range of comfortable bed linen includes cotton polycotton and flame-retardant bedding options. High quality wholesale bedding for use in hospitals, clinics, surgeries, spas, hospices and nursing homes.

The Interweave range of bedding is versatile, popular in both home care and in medical facilities. We accommodate a variety of bed sizes, fabrics and colour options to suit all requirements. For extra peace of mind, you can find our range of mattress protectors, designed to minimise the risk of accidental spills ruining your mattress.

Easy care linen, durable enough to withstand regular hot washing, without compromising on quality and integrity. We also supply disposable bedding for a convenient hygienic option.

The variety of the Interweave bedding range ensures we have suitable products for every need. We supply useful products such as FR bedding, wipe clean pillowcases, disposable bedding and more. Find everything you need at Interweave.

Interweave bedding includes everything needed for care and medical facilities. From fitted sheets to flat sheets, to top sheets and pillowcases. Our sheets are suitable for a standard single hospital bed.

This range includes bed sheets, pillowcases, mattress protectors and more. Available in different fabrics.

Interfit Bedding

The Interfit bedding range is unique, with a four way stretch fabric, you can easily make the bed alone. Where traditional bedding can be a hassle, Interfit is breath of fresh air.

The soft fabric is crease-free, minimising the risk of pressure sores for patients. The easy stretch is valued by customers, as they save time on bed making. Important in facilities such as care homes and hospitals!

Interfit offers a fitted sheet, semi-fitted top sheet and pillowcase. All you need for a complete bedding set.

Comfortable and durable material, can be washed at thermal disinfection temperatures and tumble dried. Interfit material is crease-free, going straight from the wash to the bed without hassle and looks great.

Our Interfit bed sheets are suitable for hospital beds, profile beds and long single beds. Suitable for hospitals, care homes and for home use. The four-way stretch allows you to make a bed alone without struggling.

Interfit is popular in medical and care facilities due to its easy use. Those who change many beds on a regular basis appreciate the stretchy corners & edges. The latex free material ensures patients with allergies are accommodated.

FOUR WAY STRETCH
Only takes one person
to make a bed

HOT WASH
For thermal disinfection,
after every use

Blankets

The Interweave range of blankets cover a wide range of needs, from cellular weaves to fleece blankets, from thermal throws to lap blankets. Our blankets are popular in hospitals and care homes, with many patients choosing to purchase these blankets to take home.

Customers value the comfort and lightweight nature of our blankets. Blankets can be layered for extra warmth or used alone. Available in calming colours, and a range of popular sizes.

We supply a range of flame-retardant blankets that comply with regulations such as BS EN 12952. A popular choice among care homes & nursing homes to provide peace of mind without compromising on comfort.

Extensive range available. We can supply large quantities of blankets to care and medical facilities. Choose from a variety of colours and sizes to suit your needs, and benefit from bulk discounts.

Choose durable polyester, or comfortable cotton. Our blankets wash well time after time, and do not transfer fluff. Can be laundered to thermal disinfection options. We also supply single use fleece blankets for convenience and emergency situations.

This range includes fleece blankets, cellular blankets, blankets designed to highlight falls risk patients and much more.

Pillows & Duvets

We supply a wide range of duvets and pillows to hospitals, GP surgeries, care homes and clinics.

To suit all requirements, we have a variety of flame retardant, wipe clean, and hollowfibre options for our pillows and duvets. Customers value the comfort and durability of our products, due to their soft, breathable filling.

Save on unnecessary laundry costs by choosing Interweave Healthcare for your bedding needs. Choose from a variety of sizes and styles to suit your facilities.

Save on laundering costs with our durable duvets and pillows. You can find waterproof and wipe clean options to ensure your bedding lasts as long as possible without compromising on quality.

The hollowfibre filling of our products is warm and comfortable whilst remaining lightweight. Commonly used in hospitals and care facilities, these duvets and pillows are pleasant to sleep on.

Our waterproof and wipe clean products are a durable and cost-effective choice. They are hygienic, comfortable and maintain integrity. Save time and money on laundering.

This range includes pillows that are waterproof or flame retardant, or both. Choose the right format for your needs.

Mattress Protection

Mattress protectors are a great way to ensure the longevity of your mattresses. Saving money, laundering costs and reducing your environmental impact by maintaining the integrity and quality of your existing mattresses.

You can choose to use draw sheets or waterproof protectors depending on your needs. We also supply flat sheets, or protectors with fitted elastic edging to wrap around the mattress. All our mattress protectors are made from high quality, durable material that perform well wash after wash.

Save on laundering costs with mattress protectors. Our high quality, lightweight protectors are cost-effective and a more sustainable choice. Our sheets are designed to absorb water, keeping it away from your mattress.

All our protectors and waterproof bed sheets are available to fit single beds, and longer length hospital beds. Designed to suit hospitals and care facilities where beds are a standard size.

You can opt for traditional flat draw sheets or choose extra protection with our waterproof options. Featuring a polypropylene cover with a waterproof layer within to provide peace of mind. Soft, quiet and comfortable to sleep on.

This range includes mattress protectors that are cotton rich or waterproof. Save on laundry costs with mattress protectors.

Patient Wear

Our patient wear range includes all the clothing needed for a patient staying in hospital. Including adult gowns, children's gowns, patient nightwear, baby-wraps, seclusion wear, and non-slip hospital socks.

Find size inclusive patient wear at Interweave, we supply a range of gown styles to ensure all patients feel comfortable and covered during their stay. We supply 4XL and 10XL hospital gowns, as well as bariatric non-slip socks.

Put patient comfort first with our patient wear products and benefit from bulk discounts on large orders.

Interweave Healthcare patient wear is made from durable fabric. Many of our gowns are made from polycotton, ensuring they wash well time after time without compromising on hygiene or quality.

Best-selling patient wear used in hospitals across the UK. Our variety of gowns and other patient wear ensures you can provide patients with more choice.

Our range of patient wear is also suitable for home care. Non-slip socks provide a sense of independence to those who struggle with mobility. Some patients prefer to wear hospital gowns or pyjamas at home for convenience of ongoing care.

This range includes patient gowns, hospital pyjamas, non-slip socks, seclusion wear and more.

Fall Prevention Socks

- For patients who are at a higher risk of falling over can wear fall prevention slipper socks. These are provided in bright yellow to highlight the extra risk to nurses and carers.
- The non-slip tread is on top of the foot and on the sole of the foot. So, if the sock slips around the foot in bed or when walking, there is still some safe tread gripping the floor.
- Fall prevention slipper socks are sized for non-swollen feet. If you are buying slipper socks for people with sore & swollen feet it's advisable to buy a larger size.
- Available in a range of sizes.
- Available online in packs of 5 pairs.
- Available via NHS Supply Chain in packs of 20 or 100 pairs.

Premium Scrubs: Kara Edit

Scrubs designed in the UK, the Kara Edit range of scrubs and uniforms are high quality with premium stretch. Made from a water-resistant and hair-resistant fabric, Kara scrubs are made to last.

They are available in 3 classic colours to suit most facilities, black, navy and grey. Suitable for small and large teams, such as dentists, vets, doctors and more. They are known for their blend of comfort and unique style.

Explore male and female scrubs from the Kara Edit range.

EditTex fabric is a motion stretch polyester which promotes movement. Suitable for machine washing up to 40 degrees. Can be tumble dried on cool but dries within minutes on the line.

Suitable for teams. Male and female options to suit the needs of any size facility. Modern and professional styling in traditional colours.

Functional pockets, zips and more. Storage is no problem with Kara Edit scrubs, you can carry multiple everyday essentials for your workday. Unique gold hardware for a modern look.

This range includes scrub tops, scrub trousers and matching scrub tops. Available in female & male options.

Premium Scrubs: WonderWORK

WonderWORK scrubs provide a range of comfortable, durable and professional designed healthcare uniforms which coordinate well together for a team.

Sourced from USA scrubs company, Wink. This is a high quality, respected and popular brand for scrubs across the world.

We keep core colours & sizes in stock for you for fast UK delivery.

Made from a polycotton active twill blend weave which provides a stretch element to the fabric. The WonderWORK range is perfect as scrubs and medical uniforms for medical professionals.

Warm wash these scrubs with similar colours at 40-60C for best results. Line dry or tumble dry on low. Cool iron if needed. Do not iron label.

Great scrubs range for teams, due to the wide range of sizes. There are male, female and unisex styles ensuring there is something for everyone.

Lots of additional functionality to enjoy in these scrubs. Including zips, pockets, side vents, motion stretch fabric, bungee loops, utility loops and more.

This range includes scrub tops, scrub trousers and matching scrub caps. Available in female, male & unisex options.

Premium Scrubs: RENEW

RENEW by USA brand Wink are a range of sustainable scrubs made from recycled polyester. Each garment saves 5 plastic water bottles from landfill. RENEW includes stylish and comfortable workwear for men and women.

Available in multiple colours and sizes to suit any team or facility, you can find modern and professional styles and silhouettes from this range.

Including the unique EZ zip top which reduces contact with the skin upon putting on and removing. A great hygienic option for medical and dental professionals.

Machine wash cold with like colours on gentle. Tumble dry on low and promptly remove from the dryer. Cool iron if needed. Avoid using bleach or harsh chemicals.

Great scrubs range for teams, due to the wide range of sizes and colours. There are male and female styles ensuring there is something for everyone.

Lots of additional functionality to enjoy in these scrubs. Including zips, pockets, side vents, motion stretch fabric, bungee loops, utility loops and more.

This range includes scrub trousers and matching scrub tops. Available in female & male options.

Patient Handling

Safe patient handling avoids nurses and carers suffering from back injuries by using the right equipment for each situation. The most suitable manual handling aid will differ from patient to patient and type of lift or transfer being attempted.

At Interweave Healthcare we supply NHS hospitals, clinics and nursing homes with a wide range of equipment. The most popular are slide sheets which are available in many sizes. Though there are many types of slide sheets. Slide sheets are either flat, flat with handles or tubular.

Other equipment and accessories available in this catalogue includes transfer sheets, repositioning gloves, stocking sliders and bed ladder straps.

Consider reusable slide sheets if you have facilities available to launder them, as this is the most sustainable and eco-friendly option.

Colour coded slide sheets make it easier to find the right size tubular slide sheet for the manoeuvre.

Choice of sizes available in slide sheets and transfer sheets to ensure the nurse or carer has access to the right equipment for each different movement.

This range includes slide sheets, transfer sheets and other patient handling accessories.

Slide sheet bag	20cm x 33cm	PH810-20-33---REDA06	N/A

Patient Warming

The hypothermia prevention patient warming range has been designed and manufactured by our team in the UK. These products are made from a new innovative fabric technology which is lightweight but extremely effective.

Passive warming is accelerated when the THERMARMOUR products are put to use. There's no need to use electricity, making them ideal if you have no access to a Forced Air Warming system.

The products in this range have been tested in several high-pressure environments including medical, emergency search & rescue and others.

Maintaining a patient's body heat before, during and after surgery is crucial to prevent hypothermia and to reduce the risk of infection during surgery.

Can be cut to size to fit the patient and to suit the situation effectively. There's no need to purchase and store multiple sizes.

Suitable for the patient to use during X-ray procedures.

This range includes hypothermia prevention blankets, hand warmers, a poncho and an evacuation bag.

How to order

1. Buy online - Open an online account

With an online Interweave Healthcare account, you can:

1. Buy online without having to enter your personal details each time;
2. Re-order your favourites very easily, with the Quick re-order form; and
3. Access discounted prices and web-only special offers.

2. Business purchasing - Apply for a credit account

Buying on behalf of a business means that you may be eligible to open a 30 day credit account with us. Once you have your credit account, you will be able to purchase from us via email or over the phone on an invoice basis, i.e. you will order and receive the goods as normal. You will receive an invoice by email for that order.

3. NHS orders - Ordering for the NHS

If you are buying products on behalf of the NHS, you can view much more detailed product information, view close-up photos & download data sheets containing size guides on this website. Then when you have chosen the product/s you wish to procure, click through from the product page using the **“BUY VIA NHS SUPPLY CHAIN”** button. This will open the same product on the NHS Supply Chain website.

Ordering for the NHS

Thank you

Quick delivery, excellent product. Very happy indeed.

Excellent service throughout. From initial enquiry through to delivery, Monika and their team provided excellent communication and advice. I'm really happy with the finished product we received.

Quick delivery, item as described, good quality, would recommend and would order again.

Amazing customer service and excellent quality product. Really happy and I definitely buy from you again.

I am so pleased that I found this site, excellent choice at good prices. Just what we needed to accommodate ongoing care at home.
